Who are we?
The Living Springs is a non-profit organisation governed by articles 60 to 79 of the Swiss Civil Law and is specialized in the water sector, more specifically in water treatment and renewable energies.

Our Team:
- Projects and coordination management staff
- Engineers and Technicians with more than 30 years of experience in the water sector (hydraulic, chemistry, mechanics) who are mainly coming from the water public operator of Geneva (SIG).

What do we do?
We design, produce and distribute standard and customized water treatment and purifying systems for small communities (like schools, clinics, hospitals, villages, etc.) in the developing world. We also provide project management and consulting services in the water sector, support in the frame of bilateral cooperation agreements and training programmes.

Our Offer:
ENVIRONMENTAL DEVELOPMENT SOLUTIONS
- Innovative techniques to treat and purify water while respecting human Health and Environment
- Training Programs
- Tools to manage water resources
- Campaign for raising awareness

ECONOMIC DEVELOPMENT SOLUTIONS
- Drinking water
- Jobs
- Incomes
- Capacity Building
- Time savings and Energy for profitable activities

For only 0.02 Euros cents per day, we can provide 20 liters of safe drinking water for one person in a community composed of 1000 people during at least 15 years.

What is the added value of our Solutions?
- Beneficiaries training during the installation of the water treatment systems meant for its maintenance.
- Technical support for maintenance and long-term follow-up.
- Running & exploitation models of the water treatment systems management and for water distribution: water kiosks or mixed public-private Concessions.
- Customized solutions to the needs of the small communities.

Our Water Purifying Filters are certified by the Laboratory of the Geneva Water Department (Services Industriels de Genève). It complies with both Swiss drinking water standards and World Health Organization standards.

Our System is easy to be installed and maintained: It provides affordable Water for All and its lifespan proves its Sustainability.
